PRESS RELEASE

March 2007

Contract manufacturing for Life Sciences' OEMs

Experts in filtration and separation, Porvair Technology (PTL) offer contract OEM manufacturing and R&D product development for *in vitro* diagnostic products, medical filtration products and sample preparation devices. The company provides engineering and project management services ranging from design, material selection, moulding and manufacture. Key products include BioVyon[®], a porous polymeric material manufactured to cGMP standards in an ISO 9001-accredited facility. Included in this range are hydrophilic, hydrophobic, aminated, carboxylated and protein capture BioVyon[®] for a host of applications such as SPE, blood separation, chemical wicking, sterile filtration and venting.

Porvair Technology is a division of the Porvair Filtration Group, a specialist porous media and filtration company, with expertise in a wide range of media and many years experience in filtration. The Porvair Filtration Group designs and manufactures high performance filters for the most demanding environments in industries including aerospace and defence, chemical process, power generation, oil and gas, pharmaceutical and healthcare, air and water.
