PRESS RELEASE
April 2004

**New Vyon® W from Porvair Technology for
Domestic and Industrial Water Filtration**

Porvair Technology based in Wrexham, announce the introduction of Vyon® W, a new lightweight sintered porous polymer material specially developed for the support of activated carbon and ion exchange resins, pre-filtration and membrane support.

Available in sheet, tube, and almost any 3 dimensional moulding in a range of pore sizes. Vyon® W is FDA and WRAS approved, easily cleanable, strong, rigid and self-supporting with a long life expectancy and high resistance to chemicals.

Porvair Technology is a division of the Porvair Filtration Group, a specialist porous media and filtration company, with expertise in a wide range of media and many years experience in filtration. The Porvair Filtration Group designs and manufactures high performance filters for the most demanding environments in industries including aerospace and defence, chemical process, power generation, oil and gas, pharmaceutical and healthcare, air and water.
