

Military Aircraft Filtration

These components and assemblies are used for contamination control in hydraulic, fuel, lubrication, coolant and air systems.

Primary Flight Control

- Filter modules
- Main system elements
- Bypass valves
- Differential pressure indicators
- Last chance filters
- Screens

Secondary Flight Control

- Filter assemblies
- Last chance filters
- Screens
- Main system filters
- Differential pressure indicators
- Filter modules

Auxiliary Power

- Main system filter
- Filter assemblies
- Acoustic baffles
- Last chance filters
- Screens

Braking and Landing Gear

- Filter housings
- Last chance filters

Avionics and Supplementary Systems

- Filter modules
- Main system elements
- Bypass valves

Fuel Tanks

- Strainers

Fuel Tank Inerting

- Filter assemblies
- Filter elements
