

In-Line Porous Plastic Filter

A fully integrated polypropylene filter media precision manufactured into a polypropylene housing.

This in-line porous plastic filter has excellent chemical compatibility to inkjet fluids. The high efficiency filters give long service life and are bonded for minimal extractables.

Ordering Information

Product Code: 6612 - [Table 1](#) - [Table 2](#)

Table 1	Micron Rating (Nominal)
0005	5µm

Table 2	Tube Fitting
1	Slip taper

Typical Applications

- Inkjet

Specifications

Filter Code

6612

Materials of Manufacture

Filter media: Polypropylene
Housing material: Polypropylene

Micron Rating

5µm, 10µm

Dimensions

Filter length: 61mm (2.4")
Filter width: 11mm (0.43")

Connectors

Slip taper

Maximum Operating Pressure

6bar (87psi)

Operating Temperature

From 0°C to 50°C (32°F to 122°F)
